

REMARKS

The foregoing amendment seeks to add a cross-reference to related applications and an abstract of the disclosure to the specification. Further, the original European-style claims have been canceled and new Claims 13-75 have been added. The new claims avoid improper multiple dependencies and otherwise are believed to conform to U.S. patent law and practice. The larger number of total claims results from avoidance of multiple dependencies. The new claims are based on the original ones and do not introduce new matter in the application.

Entry of these amendments prior to examination of the accompanying 35 U.S.C. § 371 application is respectfully requested.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
